"I would like to see some sort of auto-theft justice legislation along the following lines: First offence -- mandatory one year in jail with mandatory drug treatment if needed. Second offence -- mandatory two years in jail, a \$5,000 fine to be paid to a special victims-of-auto-crime fund and mandatory drug treatment if needed. If fine is not paid within a certain time, an extension on the jail term. Third offence -- 10 years in jail, a \$25,000 fine and mandatory drug treatment. If anyone is killed by a stolen vehicle, mandatory life in prison."
